Another Application For My Children

You can monitor the overall sleep patterns and room environment of your children.

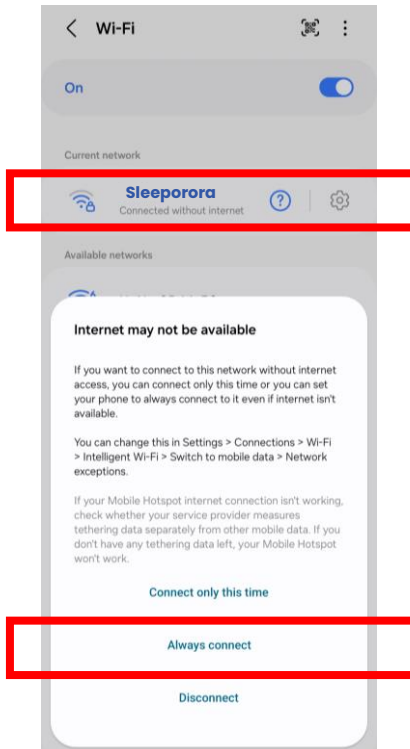

It may be inaccurate when used with more than two people or with pets.

Device Setting

1. Connect the power to the **Sleeporora** and verify that the blue LED is flashing.
2. Open the Wi-Fi window.
3. Select **Sleeporora** and enter a password to connect. **(PW: 12345678)**

★ Important ★

In the case of Android, select “Always connect” when a pop-up window like the following appears.

4. Open Google App (or Safari App) and type "192.168.4.1" in the search bar.

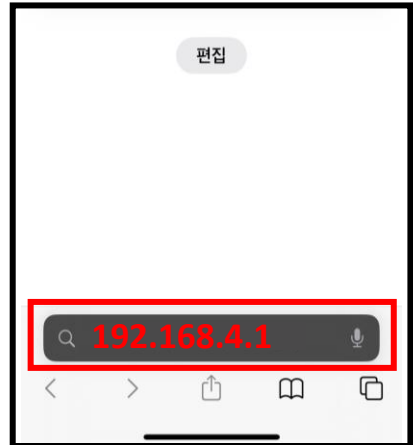

★Caution★ do not use the Chrome app.

< Android >

< iOS >

5. Select the Wi-Fi ID you are using -> Enter password -> click "connect"

When the LED light "slowly changes into various colors", **Connection Successful!**

★Caution★

If you enter the wrong Wi-Fi password, the green light keeps on. Go to pg 8 then pg 1.
